

# Where does Petland get its puppies?

At Petland, our **#1 priority** is healthy pets. This starts with having high standards for our breeders.

## PETLAND BREEDER CRITERIA

In addition to meeting all USDA criteria, Petland's breeders also exceed each animal's care requirements and meet strict standards enforced by the U.S. government.

Federal, state and local laws regulate Petland's breeders.

The state's department of agriculture and the USDA through the Animal Welfare Division enforce these laws.

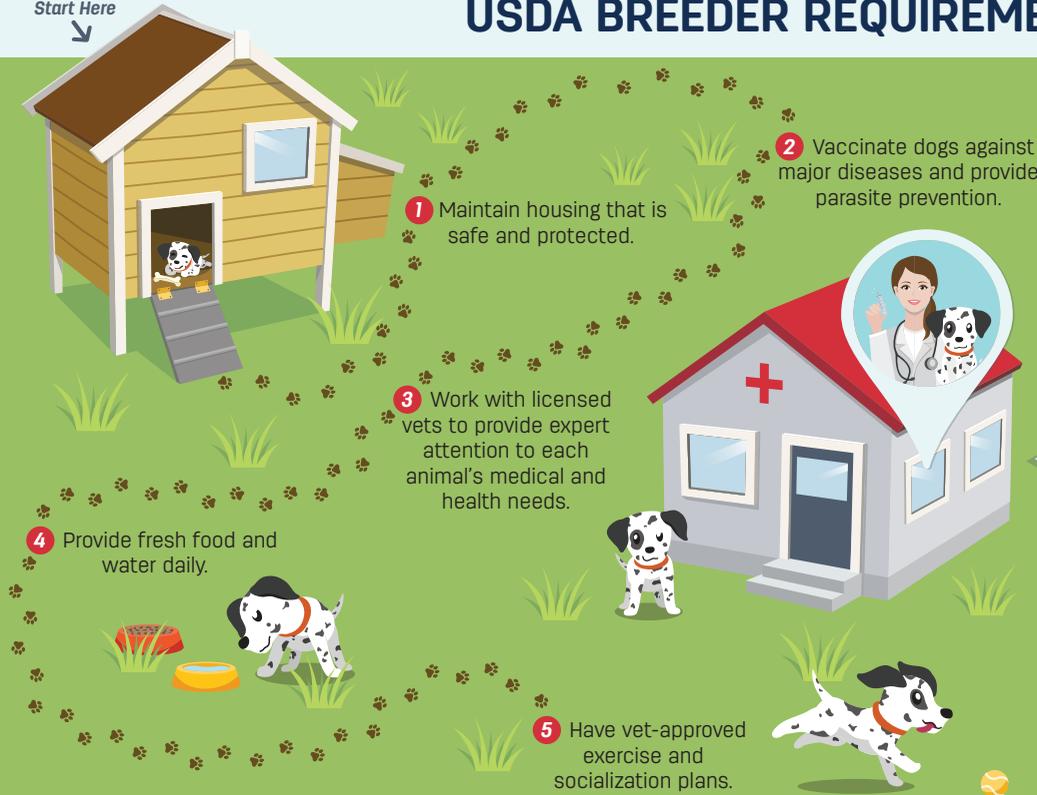

The U.S. Congress passed the Animal Welfare Act. Petland's breeders adhere to it.

Are often AKC inspected.

## USDA BREEDER REQUIREMENTS

### Vets are Key Team Members

2 (and in many cases 3!) vets check a puppy before it can be offered to customers.

Vets consult with the breeder to provide:

Good nutrition

Exercise

Hygiene

Socialization

## PETLAND'S BREEDER REQUIREMENTS

Petland's Animal Welfare team visits approved breeders to make sure Petland Welfare standards are maintained.

**10,000**  
breeders in the U.S.

**19%**  
are USDA  
licensed.

Petland only buys from the top tier of licensed breeders
